A picture of a wall absorber

Create your own individual acoustic picture

## OWAcoustic® art wall absorber

Can be printed with your own motifs

Performance art - providing the medium to convey a message and the improved acoustics to hear it. OWAcoustic® art wall mounted sound absorbers, can be used to improve the acoustic and visual environment in classrooms, foyers, restaurants and offices, from corporate logo in the boardroom to messages on the classroom wall.

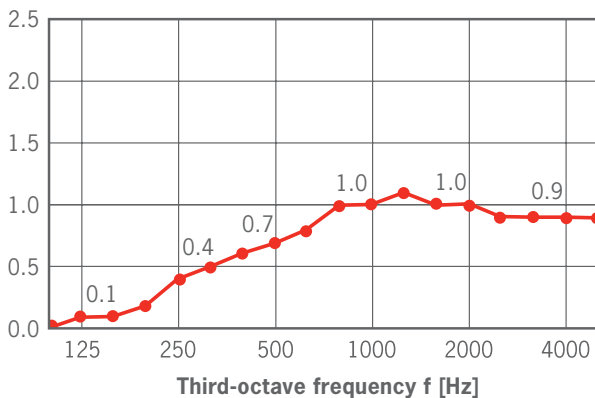

## Make your own picture!

OWAacoustic® art absorbers are wall mounted broadband absorbers that you can personalise. Create individual or multiple wall absorbers using your own pictures, photos or motifs or select from our library of images.

**Equivalent sound absorption area [m<sup>2</sup>]**  
timber frame with printed surface (1200x800x30 mm)

## Improved room acoustics simply hung on the wall

With a thickness of only 30 mm, the frameless absorbers are lightweight, easy to install and supplied with an installation pack.

OWAconsult® recommends

## OWAacoustic® art wall absorber:

You never saw acoustics in this way!

Many public areas, such as restaurants and cafés, need additional sound absorption to improve the comfort and ambience of the area. Using OWAacoustic® art wall absorbers provides effective and inexpensive sound absorption as well the opportunity to introduce decorative “works of art”.
