

#### **GENERATION HUMANCARE**

Superior quality hygienic ceilings

Humancare Lab | Humancare Plus | Humancare Pro

### OWA

## Why are highly effective acoustic hygienic ceilings so important?

- Compliance with high hygiene standards even outside clinical facilities
- Increased hygiene awareness due to SARS CoV-2
- Increased need for safety/health among patients and employees
- Positive contribution to healing process<sup>1</sup> and treatment success
- Good acoustics promote a pleasant indoor and working climate<sup>2,3</sup>
- High demands on durability and service life of products
- Increased social focus on the issue of sustainability
- Flexible adaptation of premises to changing requirements and needs.

### OWA's highly effective acoustic hygienic ceilings offer clear benefits!

- All Humancare products are tested and certified
- Complete range of hygienic ceilings for every requirement/room type
  - Health-safe products due to strictly controlled mineral wool production
- Therapy-promoting optimization of acoustics and indoor climate (emissions class A+/A)
- Comprehensive modular system the right product for every requirement
- High-quality products and robust surfaces ensure a long service life
- Sustainable production, for instance with "OWA green circle" proprietary raw material cycle
- Easy to install and can be revised and extended at any time

  [ with the exception of Humancare Lab and OWAlux]
